

HAVE YOU EXPERIENCED A RECENT HEART ATTACK?

We are conducting a clinical research study to assess the effectiveness and safety of an orally administered investigational medication in patients who have recently suffered a heart attack.

To qualify, you must:

- Be at least 45 years old
- Have had a heart attack within the past two months
- **Not** have liver disease
- **Not** have symptomatic congestive heart failure (CHF)

Qualified participants will receive study-related exams and tests and study medication at no charge.

To learn more about this investigational study please call Lillestol Research 701 232-7705 or 866 532-7705 or visit www.dal-outcomes.com.
