

Do You Have **ATRIAL FIBRILLATION OR ATRIAL FLUTTER?**

If you have an irregular heartbeat...

Lillestol Research is conducting a 12 to 24 month research study of an experimental new medication for Atrial Fibrillation or Atrial Flutter.

You may be eligible to participate in this research study if you:

- Currently have an irregular heart rhythm diagnosed as either Atrial Fibrillation or Atrial Flutter
- Currently have a regular heart rhythm but have had at least one diagnosed episode of Atrial Fibrillation or Atrial Flutter within the last 6 months.

Participants may receive study related medical care, doctor visits and study medicine at no charge.

No medical insurance is required and compensation for your time and effort is available.
